Experience

Hashedin By Deloitte   **April 2022 – present**
Software Engineer - 2   *Bengaluru, Karnataka*
- Contribute to architectural decisions, code reviews, and performance optimizations to ensure high-quality deliverables.
- Enhanced code quality by reaching 80 percent test coverage while serving as the primary front end developer for an internal project.
- Utilized Jenkins to provide a continuous integration service in order to automate the entire process of loading the latest build code and test files, running the tests, and generating a report of the results once per day.
- Stay updated with the latest trends and advancements in frontend development to continually enhance skills and bring innovative ideas to projects.
- Technology used : **React JS, Redux(saga | toolkit) Context API, Ant Design, Material UI, GraphQL etc**.

Opteamix   **April 2021 – April 2022**
Software Engineer   *Bengaluru, karnataka*
- Assisted in development of the front end web using React.JS, Redux.
- Worked with Google Firebase to manage user inputted data across multiple platforms including web and mobile apps.
- Collaborated with team members using version control systems such as Git to organize modifications and assign tasks.
- Technology used : **React JS, Redux, Context API, Material UI, REST API's etc**.

Shirish Productions   **Jul 2020 – March 2021**
Web Developer   *Belagavi, karnataka*
- Produced stunning visual elements of web applications by translating UI/UX design wireframes(Figma) into code while producing high quality, reusable css library Material UI.
- Ensured scalabilty of frontend elements by optimizing them for loading speed and performance.
- Technology used : **React JS, Context API, Material UI. etc**.

Education

Visweswaraya Technological University   **Jun. 2013 – May 2017**
Bachelor of Engineering in Computer Science   *Belagavi, karnataka*

Projects

ADMIN DASHBOARD | *React JS, Context API, Nivo Charts, Material UI*   **Link**
- The Admin Dashboard application utilizes ReactJS, Redux, Nivo Charts, and Context API to display comprehensive business data analysis with a variety of interactive charts.

ECOMMERCE | *React.JS, Redux, Material UI*   **Link**
- The implemented ecommerce application utilizes React and Redux to provide a seamless user experience, allowing users to filter products by name, size, and price while easily managing their selections in the cart.

NEWS WEB APP | *React JS*   **Link**
- The newly developed web app built with React.JS showcases daily news updates, offering an engaging and user-friendly platform for accessing current news articles.

Technical Skills

Languages: HTML/CSS, JavaScript, Typescript
Developer Tools: VS Code, Postman, Sublime, swagger
Technologies/Frameworks: React.JS, Next.JS Redux, Jenkins, GitHub, Bit-bucket
Exploring new tech: Node.JS, MongoDB, GraphQL

Leadership / Extracurricular

- Mentored many Junior's regarding the Carrier path towards frontend development
- Lead 3 team member's in my current pod to build and deliver high quality product.
- In my free time I work on my personal project's also love to sing
